

Please Stop Selling Fur At

www.caft.org.uk

Dear Sir/Madam

I am writing to respectfully request that you introduce a no-fur policy in all Beyond Retro outlets.

The production of real fur is illegal in the UK on grounds of animal cruelty, and the vast majority of department stores and fashion stores now operate an ethical fur-free policy.

It does not matter if the fur item is vintage or new, the fact remains that animals suffered and died in horrific circumstances to produce it, and your policy of selling real fur is encouraging and prolonging this barbaric trade.

Please take the compassionate and ethical step of stopping the sale of real fur.

Yours faithfully
